

# Reference Materials for PMI® Professional in Business Analysis (PMI-PBA)® Examination

Exam candidates should be aware that the PMI Professional in Business Analysis (PMI-PBA) examination is not written according to any single text or singularly supported by any particular reference. PMI does not endorse specific review courses, resources, references or other materials for certification preparation. The references listed below are not inclusive of all resources that may be utilized and should not be interpreted as a guaranteed means of passing the exam. As the PMI-PBA is a competency-based credential which assesses the integrated set of knowledge, skills and abilities as gained from both practical and learned experiences, it should also be noted that the references identified herewith are but one element of a broader set of educational resources and texts that might possibly be utilized for exam study and preparation. This reference list is provided as a courtesy only and for the non-PMI publications on the list PMI does not endorse such publication or warrant the accuracy of the information or opinions contained therein.
