

**Frederick A. Arnold, PMI Fellow, PMP®**

Director

Fred Arnold from Beaver Falls, Pennsylvania, USA, has been active in PMI for more than 25 years and is co-founder of the PMI Pittsburgh, Pennsylvania, USA, Chapter and co-founder/chair of the PMI Pittsburgh Chapter's information technology SIG (Specific Interest Group) and PMO Roundtable. He is a PMI Fellow and Distinguished Contribution recipient.

Mr. Arnold serves as vice president/general manager for Le, Arnold & Associates, LLC, an international project management and IT consulting services firm with a primary focus to government clients. He provides project management subject matter expertise to the U.S. Department of Homeland Security and other federal agencies for key IT projects and programs.

In his professional career, Mr. Arnold has held a comprehensive focus on the application of project management principles to the development and implementation of owners' management controls, corporate compliance, governance, risk management, processes and standards, Enterprise Portfolio Oversight and Reporting and business unit interface.

Mr. Arnold's 35 plus years experience spans project management delivery, consulting service operations management, offshore services management, regulatory affairs and management consulting to clients' executive management and senior staff. He has led the implementation of owners' management controls on several mega projects (\$2 billion to \$4.565 billion/US) and numerous large projects. His clients have been in the energy, IT, engineering-construction, environmental remediation, manufacturing, chemical-process, financial services and transportation industries and regional, state and federal governmental agencies.

Mr. Arnold performs owner's oversight of Big 4, global, national, and specialty service firms to ensure satisfactory performance. Currently, he performs program management and management consulting for the U.S. Transportation Security Administration Information Technology Division.

Mr. Arnold holds the Project Management Professional (PMP)® credential. He earned a Bachelor of Arts degree in economics from Geneva College in Beaver Falls, Pennsylvania, USA.

About PMI

Project Management Institute (PMI.org) is the leading advocate for the project management profession globally. Founded in 1969, PMI has nearly 500,000 members and credential holders in 175 countries. PMI's Project Management Professional (PMP)® credential is recognized as the only globally-transferrable credential in project management.
