Chapter with Branches Model – Branch Administration FAQ

Q. How would the membership administration (fees, etc.) within a branch structure work?

A. In the chapter with branches community model, PMI members join a chapter, not a branch. Dues are remitted to PMI, as they were prior to the chapter with branches structure, and distributed to the chapter in the same manner as were before. How the chapter chooses to deploy its funds, both from dues and other revenue generating activities, remains the responsibility of each chapter's board of directors.

Q. How would branch members be allocated and tracked?

A. GOC will be working on this in 2007 as part of the PMI.org initiative. DEP will be changed to reflect this.
