

Thank you for your interest in becoming a PMI OPM3® Certified Professional. This certification recognizes that an individual has met PMI's extensive eligibility requirements in project management, assessing and consulting, and OPM3 practical knowledge, as well as successfully completed the required PMI training course on the use of the OPM3 ProductSuite product. It is also required to gain access to PMI's proprietary organization assessment and improvement software tools. Achieving the designation of OPM3® Certified Professional is the highest recognition of OPM3 expertise in the field.

The application process, the first step to becoming a PMI OPM3® Certified Professional, is our opportunity to learn more about you and the unique experience you bring to the program. Please complete the application in its entirety and submit via fax to PMI for review. Upon review you will receive notification to continue with the certification process.

If you have questions that were not answered in the [OPM3® Certification Handbook](#), please do not hesitate to contact us at opm3.info@pmi.org.

Sincerely,

Marvin Hargrove

Organization Product Manager
