

## Preliminary Scope Statement

The objective of the School Supply store project is:

List the requirements of the project:

**Example:** Self-maintain the operating expenses of the School Supply Store

Boundaries (what will not be done with this project):

**Example:** This project will not include designs or construction of supply displays.

Assumptions (What we believe to be true about the project that affects our decisions):

**Example:** The school supply store customers will only be LATCA students and faculty.

Constraints: (What things limit what we can do to complete the project):

**Example:** The cost of the school supply store can't be more than \$\_\_\_\_\_

Milestones (The big accomplishments of this project that will help us measure progress)

**Example:** The supplies to be sold in the store will be identified by (date)

The project should cost:
