

EVENT

Project Management vs Change Management

JUNE

18:00 – 19:30

ABOUT

The debate about the alignment of Project Management and Change Management and how necessary they are for delivering successful projects has been ongoing for many years and will continue to do so for many years to come. Essentially the debate revolves around whether a Project Manager can be a Change Manager at the same time or is there a need to have both disciplines working in collaboration when working on projects?
