2 INTRODUCTION

2.1 Document Objectives

The objective of this Handbook is to provide "PMI Karachi Pakistan Chapter" (hereafter called "The Chapter") Board of Directors (hereafter called "the Board") and sub-committee members:

- With a clear understanding of their roles and responsibilities.
- A standard set of policies and procedures with which to achieve individual Board member's goals.
- Details of the structure and further development of the "Chapter Management System".

This document provides detailed information not contained in the Chapter's Bylaws. In the event of inconsistency, the Chapter's Bylaws will take precedence over this document. All Officers are required to read and familiarize themselves with the Chapter's Bylaws as a pre-requisite to reading this document. The Bylaws and this Handbook cover the governance and operational aspects of the Chapter. The Chapter's Strategic Plan provides the strategic direction for the Chapter.

2.2 Updates

This document is owned by the Chapter President. However, the Chapter Board members are jointly responsible for maintaining and updating the document. Any changes to the Handbook do not require the Chapter membership to vote on it. Only the Board members need to approve amendments / revisions to the Handbook.

The Handbook structure has been designed so that updates to this document may be undertaken either by:

- Individual Office Bearers, usually with updates pertinent to their portfolio
- As a Board initiative with the action item assigned to specific Office Bearer(s) as documented in the Board Minutes

Board members are to provide suggested enhancements to the Vice President-Governance & Policy (VP-Governance & Policy) in the form of text changes to the current version of the Handbook. The VP-Governance & Policy is to examine and report on these suggestions to the Board. Updates to the Handbook will be formally communicated to the Board with at least 7 days for review. The amendments are to be an agenda item for discussion and approval at the next Board meeting. Approval of the revised document shall be documented in the Board Minutes and in the Document Control section of the Handbook. The VP-Governance & Policy is responsible for custody of the Handbook and for distribution to the Board as part of the Handbook update and approval processes.

2.3 Guiding Principles

The Chapter operates on the basis of each Officer assuming responsibility for his/her Portfolio as defined in the Bylaws and this Handbook. Governance of the Chapter is the responsibility of the Board with members acting as the Sponsor for specific Events or Programs of the Chapter as required.

As could be expected of a project management professional body, the Chapter “Manages by Projects” using the PMBOK as the project management framework and using an emerging project management methodology based on it.

The overriding guiding principal is that the Chapter will always act in the best interests of its members, adding value to their membership entitlement whenever and wherever possible. It will also work in the interests of furthering the advancement of the project and program management profession by co-operating and partnering with academic, corporate, government, non-governmental, social sector and complementary professional associations and organizations.

3 CHAPTER MANAGEMENT SYSTEM

3.1 Introduction

The purpose of this section is to create the skeleton of a formal Chapter Management System which can be further developed over time.

3.2 Chapter Management System Structure

The Chapter Management System has a three-tiered structure:

1. PMI Charter Agreement
2. Chapter Bylaws
3. Chapter Handbook
4. The forms and templates which have been developed over time at both Board and individual Portfolio level to facilitate the execution of Board and portfolio business.

This document builds upon the PMI’s “*Policy Manual for PMI Chapters*”, for which the latest edition can be found on the *PMI Website* (<http://www.pmi.org>). This Handbook is subordinate to the global document. Additional process and procedural guidance is also to be sourced from the material contained on the *PMI Website* and the *PMI Chapter Collaboration Platform* (<https://ccp.pmi.org>).

3.3 Chapter Document Register

An electronic copy of a *Chapter Document Register* will be developed to record the:

1. Forms and templates in use by the Chapter
2. The Chapter’s controlled documents

The intent is to allow updates to the Chapter’s forms and templates to occur over time (with the history of these changes recorded in the form and template) without a corresponding need to update the Handbook. The document register will have separate sections for:

1. Board level forms, templates and controlled documents
2. Individual Portfolio forms, templates and controlled documents.

3.4 Further Development

Further development of the Chapter Management System will be determined over time after the important first step of achieving a *Document Register* of Chapter controlled documents, forms and templates has been achieved. Future possibilities include the development of a common electronic repository of all chapter documents. Where required, a hard copy of documents will also be maintained.

4 ELECTION OF THE BOARD OF DIRECTORS

The nomination and election of Officers shall be conducted annually in accordance with the terms of office specified in Article IV, Section 1 of Chapter bylaws. Discrimination in election and nomination procedures

Guidelines, Policies, and Procedures
