The LIMC - Leadership Institut Master Class is a 12-month program promoted by PMI globally to grow its volunteers who are engaged - elected or nominated - in chapter roles. Through a selection divided into several phases, every year the PMI constitutes a class made up of about thirty participants, coming from all over the world.

In the early years of the program, the LIMC was organized across multiple classes in different geographic areas. In more recent years, the LIMC is divided into a single class that meets three times, throughout the year, in the United States, to work together and under the guidance of qualified trainers and coaches, in order to deepen the issues of leadership and communication, in favor of the members and the communities of reference. Between one-to-

one meeting and the other, the participants work in virtual mode in small teams.
