

Project Management Institute Global Accreditation Center for Project Management Education Programs (GAC)

Promote your GAC Accredited Program

Academic degree programs accredited by the Global Accreditation Center for Project Management Education Programs (GAC) are members of a select group that embraces and promotes the discipline of project management.

GAC accreditation confirms that an institution's project management degree program has been carefully assessed and that its scale, scope, and quality meet comprehensive, global standards for accreditation. It makes a public statement about the deep commitment of the institution and its faculty to ongoing evaluation and continuous quality improvement.

To this end, GAC has developed an exclusive web page where GAC accredited programs can access a number of resources to promote their accreditation, as well as to provide information to stakeholders about the importance of project management. On this website, programs can download:

- GAC Accredited Program Logos in a number of formats and the GAC Usage Guidelines
- GAC Videos for use in promoting your program
- Template Press Releases for announcing accreditation
- Other related collateral

This is a private link only available to designated representatives from GAC accredited programs.
