

PMI ORGANIZATION MEMBERSHIP AND CERTIFICATION PROGRAM

Strengthening employees and
organizations around the globe.

[PMI.org/results](https://www.pmi.org/results)

See better business results.

While technical skills are core to project and program management, they're simply not enough in today's competitive global economy. The most successful organizations seek added abilities in leadership and business—competencies that support and sustain long-range strategic objectives. The ideal skill set—a combination of technical, leadership, and strategic and business management expertise—is embodied in the PMI Talent Triangle™. When organizations focus on a comprehensive set of capabilities, 40 percent more of their projects meet goals and original business intent.¹

Who better to help you achieve these results than **the world's leading professional membership association for the project, program and portfolio management profession**, Project Management Institute? Delivering value to more than 2.9 million professionals, PMI is committed to advancing the profession of project management to strengthen organizations around the globe.

Eighty percent of high-performing organizations establish ongoing training for project managers.²

The **PMI Organization Membership and Certification Program** has been created to provide your employees with the advantages of the global advocacy, collaboration, education, and research that PMI has spent nearly half a century developing and nurturing. This three-pronged program enables organizations to thoughtfully invest in the growth of their employees, naturally contributing to the strength and success of their organizations as a whole. You will have the opportunity to provide the following:

1 | CERTIFICATIONS

In an increasingly projectized world, PMI's professional certifications ensure that your employees are ready to meet the demands they face on the job. No matter where they are on their career paths, PMI has the certifications they need to continually evolve and deliver greater contributions to your organization. In addition to the gold standard in project management certification, the Project Management Professional (PMP)®, PMI also offers the following:

- Program Management Professional (PgMP)®
- Portfolio Management Professional (PfMP)®
- Certified Associate in Project Management (CAPM)®
- PMI Professional in Business Analysis (PMI-PBA)®
- PMI Agile Certified Practitioner (PMI-ACP)®
- PMI Risk Management Professional (PMI-RMP)®
- PMI Scheduling Professional (PMI-SP)®

2 | PMI MEMBERSHIPS

By joining PMI, your employees will benefit from our pledge to continually advance the profession of project management, and advocate on behalf of professionals around the world. PMI's commitment translates in many ways, including a wealth of professional development resources that will build your employees' skill sets, bringing greater value to your organization. Plus, they will instantly be part of a passionate, global community over two million strong. Your commitment to them will, in turn, become their commitment to you.

3 | CHAPTER MEMBERSHIPS

With hundreds of local chapters located in cities around the world, chapter membership offers the opportunity for members to connect globally, locally, and socially with peers. This connection provides the support your employees need for idea sharing, networking, and skill enhancement, while also furnishing your organization with the opportunities to raise its profile within the local community and showcase project management successes. Plus, volunteer opportunities and member-only events provide possibilities for even greater employee growth.

The top two components to help ensure the success of projects are ongoing training for project managers and a formal process to develop project manager competency.³

Bringing it all together.

Introduce the PMI Organization Membership and Certification Program at your organization and provide employees with immediate access to globally recognized standards, certifications, resources, tools, academic research, publications, professional development courses, and networking opportunities.

Visit [PMI.org/results](https://www.pmi.org/results) to order certifications, PMI memberships, and chapter memberships by completing the online enrollment form.
