

Welcome to our newest volunteer role. It's great that you have agreed to take in this role with your chapter. These are very exciting times with lots of change - on many fronts.

We have some upcoming meetings to map out a more detailed strategy and plan for the DA - Chapter integration. This includes a detailed role description for the DA Champs. The DA program roadmap should be coming by first quarter as the annual planning is scheduled in January.

As a starting point I would recommend the following initial steps:

1. Arrange for the delivery of your copies of [Choose Your WoW!: A Disciplined Agile Delivery Handbook for Optimizing Your Way of Working \(WoW\)](#) (2019) Ambler & Lines with Chris Mairs at PMI.

2. Work with your Board to determine how the books will be shared. (Of course you will need to read one, and determine the other board and chapter leadership positions that should have one, as well the arrangement for perhaps loaning out the other copies to interested members.)

3. Here is a link to materials and the [introductory webinar](#) conducted by Mark Lines from DA that helps our Chapter leaders and DA Champs begin to understand the landscape.

4. Take a look at the DA websites:

The Membership site (<https://www.disciplinedagileconsortium.org/>) – [here you may](#)

- [subscribe to the DA Newsletter](#), for up-to-the-minute DA Community information and updates;
- [find training](#);
- see member events currently scheduled;
- view the certification roadmap; and
- browse the [Resources](#) – with presentations, videos, webinars and more

The information site (<https://disciplinedagiledelivery.com>) - here you will begin to understand the framework

5. Work with your Board of Directors to revisit the Chapter's Annual plan to see where possible DA presentations, trainings, etc. may be incorporated.

These steps will position you well to begin to plan for and integrate DA with your Chapter's events, offerings, and community.

Looking forward to an exciting year,

Beth Ouellette
